MANISHA PANDEY

COMPUTER SCIENCE & ENGINEERING STUDENT | ASPIRING SOFTWARE DEVELOPER

+91 63879 70418 | mp923089@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science and Engineering student (2023–2027) with academic project experience in web development, programming and relational databases. Familiar with Java, Python, C/C++, JavaScript, React.js, Node.js, Express.js, SQL and MySQL. Interested in software development, problem-solving and building practical technology solutions. Seeking an entry-level software development internship or graduate opportunity to apply and strengthen technical skills.

TECHNICAL SKILLS

Programming: Java, Python, C, C++, JavaScript
Frontend: HTML5, CSS3, responsive web design, React.js (project learning)
Backend & APIs: Node.js, Express.js, REST API concepts (project learning)
Databases: SQL, MySQL; foundational MongoDB knowledge
Core CS: Object-Oriented Programming, Data Structures, Design and Analysis of Algorithms, DBMS, Computer Networks
Tools: Git, GitHub, Visual Studio Code, Windows 11, Linux

PROJECTS

Scam Sathi | Hackathon Project — CHAKRAVYUH 1.0

Hackathon project in the AI-based cybersecurity domain, focused on helping users recognize potential online scams and improve cyber-safety awareness. Describe and demonstrate only the detection and awareness features implemented in the project.

CS Nexus Pro | Full-Stack Learning Platform — In Progress

Building a computer science learning platform with planned student and admin experiences. Working with React.js and Tailwind CSS for the frontend, Node.js and Express.js for backend APIs, and MySQL for data storage. Authentication, role-based access and YouTube learning-content integration are planned or in progress.

Vehicle Tracking System | Academic Project — 2025–2026

Academic project focused on GPS-based vehicle location and vehicle-status monitoring. Explored an interface concept for monitoring multiple vehicles and fleet-monitoring use cases using GPS/GSM tracking concepts.

E-Commerce Website | College Mini Project

Developed a college mini project for an online shopping website using HTML, CSS, JavaScript and MySQL. Worked on responsive interfaces, product browsing, shopping-cart functionality, login and database features.

EDUCATION

B.Tech, Computer Science and Engineering — S.R. Institute of Management and Technology, affiliated to Dr. A.P.J. Abdul Kalam Technical University (AKTU) | 2023–2027
Intermediate — Jawahar Navodaya Vidyalaya | 2022–2023

TRAINING & PROFESSIONAL LEARNING

Data Analytics — be10x: 6-month course, currently pursuing
Java Programming: Scaler Academy / Scaler Topics — Java Fundamentals
Web Development Training: Practice with responsive websites using HTML, CSS and JavaScript
AR/VR Workshop: Innovator's STEM Lab (YISL)
Additional learning: Python libraries (ongoing); Python Masterclass and Certified Ethical Hacker (CEH) course content — Udemy

HACKATHON & PROFESSIONAL STRENGTHS

CHAKRAVYUH 1.0: Hackathon participant, AI-based cybersecurity domain.
Strengths: Problem-solving, critical thinking, communication, teamwork, time management, adaptability and continuous learning
